

ASX Announcement | 4 March 2021
Noxopharm Limited (ASX:NOX)

Notice under Section 708A(5)(E) of the Corporations Act 2001 (Cth)

Sydney 4 March 2021: Australian clinical-stage drug development company Noxopharm Limited (ASX:NOX) has today issued 4,075,000 Ordinary Shares (New Shares) as per the attached Appendix 2A and these New Shares will rank equally in respects with existing ordinary shares, further to the Underwriting Agreement dated 19 February 2021 between Canaccord Genuity (Australia) Limited and Noxopharm Limited (“Agreement”), as announced on the same date. The New Shares represent the number of Shortfall Shares under the Agreement as announced on 1 March 2021.

In addition, the Company has issued 37,664 Ordinary Shares (New Shares) as per the attached Appendix 2A from the exercising of 37,664 listed options (ASX: NOXO).

NOX gives notice under section 708A(5)(e) of the Corporations Act 2001 (Cth) that:

- 1 The New Shares were issued without disclosure to investors under Part 6D.2 of the Corporations Act.
- 2 As at the date of this notice, NOX has complied with:
 - (a) The provisions of Chapter 2M of the Corporations Act as they apply to NOX; and
 - (b) Section 674 of the Corporations Act.
- 3 As at the date of this notice, there is no information that is “excluded information” of the type referred to in sections 708A(7) and 708A(8) of the Corporations Act that is required to be disclosed by the Company under section 708A(6)(e) of the Corporations Act.

For and on behalf of the Board,

Yours faithfully,

David Franks
Company Secretary

Graham Kelly, Noxopharm CEO and Managing Director, has approved the release of this document to the market on behalf of the Board of Directors.

-ENDS-

About Noxopharm

Noxopharm Limited (ASX:NOX) is an Australian clinical-stage drug development company focused on the treatment of cancer and septic shock.

Veyonda® is the Company's first pipe-line drug candidate currently in Phase 2 clinical trialling. Veyonda® has two main drug actions – inhibition of sphingosine kinase and inhibition of STING signalling. Activity against the former target contributes to its dual-acting oncotoxic and immuno-oncology functions designed to enhance the effectiveness and safety of standard oncology treatments, i.e., chemotherapies, radiotherapy and immune checkpoint inhibitors. Activity against the latter target provides an anti-inflammatory effect, also contributing to an anti-cancer action, but also potentially blocking the development of septic shock.

Noxopharm also is the major shareholder of US biotechnology company Nyrada Inc (ASX:NYR).

Forward Looking Statements

This announcement may contain forward-looking statements. You can identify these statements by the fact they use words such as “aim”, “anticipate”, “assume”, “believe”, “continue”, “could”, “estimate”, “expect”, “intend”, “may”, “plan”, “predict”, “project”, “plan”, “should”, “target”, “will” or “would” or the negative of such terms or other similar expressions. Forward-looking statements are based on estimates, projections and assumptions made by Noxopharm about circumstances and events that have not yet taken place. Although Noxopharm believes the forward-looking statements to be reasonable, they are not certain. Forward-looking statements involve known and unknown risks, uncertainties and other factors that are in some cases beyond the Company's control (including but not limited to the COVID-19 pandemic) that could cause the actual results, performance or achievements to differ materially from those expressed or implied by the forward-looking statement. No representation, warranty or assurance (express or implied) is given or made by Noxopharm that the forward-looking statements contained in this announcement are accurate and undue reliance should not be placed upon such statements.
