

# ASX Announcement | 3 November 2020 Noxopharm Limited (ASX:NOX)

# 2020 Annual General Meeting Reminder

Sydney, 3 November 2020: Australian clinical-stage drug development company Noxopharm Limited (ASX:NOX) wishes to remind shareholders that the Company's next Annual General Meeting (AGM) will be held on Tuesday 17 November 2020 at 2.00 pm AEDT.

The 2020 AGM will be held as a virtual online meeting. The full details for the AGM, including voting and attendance guidelines, have been provided to shareholders with the Notice of Meeting.

Following formalities, Noxopharm executives will provide a corporate and clinical update on the significant progress of the Company this year.

Shareholders are encouraged to submit questions in advance of the AGM to the Company. Questions should be submitted in writing by Tuesday 10 November 2020 to the Company Secretary, David Franks at <u>David.Franks@automicgroup.com.au</u>.

The Company also would like to thank shareholders who have elected to receive all shareholder communications by email, where applicable. To achieve this, shareholders are encouraged to contact the share registry, Automic Group, via the details below, to provide their email address:

- Visit: <u>www.automicgroup.com.au</u>
- Email: hello@automic.com.au
- Telephone: (Within Australia) 1300 288 664 (Outside Australia) +61 2 9698 5414

## -ENDS-

Graham Kelly, CEO, has approved the release of this document to the market on behalf of the Board of Directors.

## About Noxopharm

Noxopharm Limited (ASX:NOX) is an Australian clinical-stage drug development company focused on the treatment of cancer and septic shock.

Veyonda<sup>®</sup> is the Company's first pipe-line drug candidate currently in Phase 2 clinical trialling. Veyonda<sup>®</sup> has two main drug actions – inhibition of sphingosine kinase and inhibition of STING signalling. Activity against the former target contributes to its dual-acting oncotoxic and immuno-oncology functions designed to enhance the effectiveness and safety of standard oncology treatments, i.e., chemotherapies, radiotherapy and immune checkpoint inhibitors. Activity against the latter target provides an anti-inflammatory effect, also contributing to an anti-cancer action, but also potentially blocking sepsis.

Noxopharm also is the major shareholder of US biotechnology company Nyrada Inc (ASX:NYR).

#### **Forward Looking Statements**

This announcement may contain forward-looking statements. You can identify these statements by the fact they use words such as "aim", "anticipate", "assume", "believe", "continue", "could", "estimate", "expect", "intend", "may", "plan", "predict", "project", "plan", "should", "target", "will" or "would" or the negative of such terms or other similar expressions. Forward-looking statements are based on estimates, projections and assumptions made by Noxopharm about circumstances and events that have not yet taken place. Although Noxopharm believes the forward-looking statements to be reasonable, they are not certain. Forward-looking statements involve known and unknown risks, uncertainties and other factors that are in some cases beyond the Company's control that could cause the actual results, performance or achievements to differ materially from those expressed or implied by the forward-looking statement.
